## Set your sights on the opportunities to hunt right here in northeast Missouri!

Northeast Missouri's numerous public lands range from rich bottomland forests along the Mississippi River to scenic rolling hillsides. Theses diverse habitats support an equally diverse amount of wildlife–and hunting opportunities.

Far too many to list, our popular game animals include white-tailed deer, Eastern wild turkey, bobwhite quail, rabbit, squirrel, furbearers and waterfowl. During two of the most popular hunting seasons, Missouri hunters harvest about 200,000 deer and 60,000 turkeys annually.

The Missouri Department of Conservation offers hunter education for people who would like to hunt but lack experience. Workshops and clinics are plentiful throughout the northeast area.

Our Outdoor Skills Program offers adults and children the chance to learn hunting skills from experts in a safe, pressure-free environment.

The program also offers people with mobility impairments access to hunting opportunities.

**Please note:** Seasons and hunting regulations are specific to each region, so always review the published information via our Web site (missouriconservation. org/regs/) or written publications for the most up-to-date information.

Information about hunting regulations, permits, and seasons is at your fingertips. Hunting permits are available for sale 24 hours a day, 365 days a year by calling 1-800-392-4115.
